TWO CAUGHT IN THE ACT 2,000 GALS. BEER DUMPED

Caught Two Men and Boy; Boy Released, Men Turned Over to Federal Authorities.

Monday Marshal V. C. Lyles, Henry Turner and J. H. Henry caught Calvin Rector and John Rector, Jr. and Arthur Rector, a boy about 12 years of age, at a still located about three quarters of a mile from the home of Will Rector, in the Tolletts Chapel neighborhood, as they were in the act of setting up the still.

The boy, Arthur Rector was turned loose, but the other two were brought to town and lodged in jail to await the arrival of Revenue Officer J. C. Tyler.

They were laying in wait within sight of the still point and the men came up with the still and proceeded to set it up preparatory to making a run of whiskey. They had about 2,000 gallons of beer ready for making into whiskey; it was all destroyed along with the still, several barrels and other equipment.

OZONE

The Ozone ball team is beginning to do some good playing. The community is proud of and very much interested in the team. They are helping them to raise money for their equipment and in a short time the team will have a splendid outfit for playing. Saturday the Ozone team played Crab Orchard. The score was 30 to 14 in favor of Ozone, but the Crab Orchard boys have not had the practice that our boys boys have, they played a good game however. Crab Orchard has a splendid bunch of boys and the community should get behind them and help them to have a good team. The team at Ozone will be glad to arrange for some Saturday games with some of the teams in the county. Let us hear from you.

Rev. P. E. Radford filled his regular appointment at Ozone Presbyterian church Saturday evening and Sunday. He will preach at Grassy Cove next Saturday evening and Sunday morning and evening.

Sunday, Dock Scott and another man went still hunting. They found three barrels of beer among some fallen tree tops, four miles east of Ozone. They tracked a wagon to a man's house at Waldensia and found some empty barrels there. The man claimed that he had found them and brought them home for "rain barrels." They also found seven barrels of beer on Kings Branch, three miles from Ozone. All these were destroyed.

Miss Hallie Dunbar was a guest of her sister, Mrs. Huland Parham, over Sunday. May 8.

FACTS FOR FARMERS.

The white race cannot survive without dairy products.—Herbert Hoover. Frequent Cultivation is the secret of success in gardening. A well prepared seed bed is more than half the task in the operation.

The farmer who feeds his crop to livestock is not only a producer, but a manufacturer as well with two possible profits instead of one each year.

Manure derived from feeding livestock is an important asset. A 1,000 pound steer produces between 3 and 4 tons of manure in 6 months.

The basis of a better rural life is a greater earning capacity. This the farmer can only obtain by building up and maintaining his soil fertility.
